

# "GO GREEN"

## Be a Certified Green Sustainability Building Service Contractor

The Canadian Green Sustainability Program (CGSP), available through the Canadian Sanitation Supply Association (CSSA), is a nationally-recognized program complete with an independent third-party certification and auditing system. The CGSP™ is designed by Canadians for Canadians.

Building Owners and Facility Managers are currently seeking service personnel who can accommodate their goals of achieving "Green Building Status." Certified Green Sustainability Contractors (CGSCs) are equipped with the tools and knowledge to achieve these goals... at no added cost to the Building Owner / Facility Manager.

- Improve your company's visibility and credibility with "Green Certification Status."
- Certification through the CGSP™ is affordable and achievable.
- Build National recognition through the CSSA web site and marketing programs.
- Certification through the CGSP™ will help reduce internal liability through the reduction of chemical toxicity and exposure.
- Increase employee morale and reduce turnover.
- Improve profit margins through increased business and lead referrals.
- CGSP™ is supported by TerraChoice / EcoLogo.
- Enjoy the benefits of Associate Membership in the Canadian Sanitation Supply Association.

For more information, please contact your local  
**Expert Sustainability Professional (ESP)** or visit the CSSA web site at  
[www.cssa.com](http://www.cssa.com) for a complete list.
